

CERTIFICATE „THINK EUROPE“

This is to certify that

Roman Miah

has successfully participated in the European Youth Project:

**“European by heart” – Young Europeans and their European citizenship
Between democracy, the European election 2019 and living & working in Europe**

The international youth gathering is part of the European Youth Concept “think europe”.

The project took place in the Europahaus Marienberg from

from March 17th to March 22nd 2019

Participants were young Europeans from

Finland, Hungary, Spain and Germany

In the course of the gathering basic European knowledge, European Citizenship and central issues of democratic civil society (e.g. solidarity, tolerance and cultural diversity) did not remain abstract concepts but were experienced as immediate reality by the participants. Specific European policy areas and a broad range of political, social and cultural topics were discussed, analysed and critically (re-)considered.

Non-formal and intercultural activities guaranteed an engaging, thought-provoking and inspiring learning environment. Social cohesion and communication skills were acquired and enhanced. The extensive use of digital and social media gave participants great opportunities to actively participate in European discourses and raise awareness for their needs and ideas. Participants delved into complex European issues and were conscientized for the European dimension. Active and substantial participation in the European discourse is now possible.

We wish you further success in your future endeavours and trust
that you will keep up your European commitment.

Bad Marienberg, 22/03/2019
